

# The Wisdom Teachings of Zenju

Do you struggle with your physical incarnation?

Do you feel undernourished, lost, or alone?

Are you bombarded by sexism, racism, misogyny, or other imposed oppressions?

Is your creativity or life force stifled?

Do you know you are wise but distrust your instincts?

## *Immerse Yourself In The Sacred™*

Through divination, transmission of prayers, and wisdom-based invocations, I divine with my ancestors and guides to connect you directly with the realm of spirit that will clarify and enliven your life. My heart capacity to see and look, hear and listen, have been ripening for many decades as an Elder and Medicine Woman, and I offer a warm refuge that will support you in:

- Affirming the wisdom in your bones
- Renewing energy for your work and service in the world
- Living in harmony with your gifts and the gifts that surround you
- Illuminating your divinity by awakening to your spirit and ancestral lineages
- Caring for your soul

If you resonate with wisdom teachings, ritual, and ceremony, and want to immerse yourself in the sacred, I welcome you to come and bring all of who you are.

*"Know that you are a blessing whose thoughts, actions, intentions and compassionate consciousness will reach beyond this world into greater realities. Immersing ourselves in the sacredness of life is to open to the vastness of it."*

Our journey together progresses through **three 2-hour Zoom** sessions over 90-days:

- **Assessment** – Utilizing the *Black Angel Card Oracle* that came through a spiritual lucid dream in 1996, we explore what is begging for your attention and hone what is needed.
- **Divination** - Using my private collection of symbolic instruments of divination, sacred tools, prayer and meditation, your body settles, your heart opens, and the volume of noise in the world is turned down so that you can see and hear ways to meet life as it presents itself. I reflect back to you what comes through you and your ancestors. Note: Divination is not a psychic reading nor a prediction of the future. Rather, it is a communion with the divine and an acknowledgement of the cosmic ceremony we live in.
- **Integration** – In this session I support you in clarifying and integrating your own wisdom, and we explore what further supports are needed.

**Reciprocity:** An offering of \$1,500 is appreciated as it greatly supports my service. Payment plans accepted.

**Contact:** [info@zenju.org](mailto:info@zenju.org) to ask questions and book your assessment.

*"Let the earth feed you and dance in its open field." Zenju*
